

NROTC Scholarship for Juniors

The applicant process is open and the earlier they start the better. Starting the process now increases the likelihood of selection and those selected will know by December.

To qualify applicants must: Score 1000 combined on SAT, 22 on the ACT, Must be a US Citizen, and meet physical qualifications. If you are willing, I ask to please get this information out this year's junior class.

Also, any student that expresses interest in applying to a service academy should also strongly consider applying for the NROTC Scholarship. Only applying to the service academy is like only applying to one university. Always better to have more options then now options.

If you are interested in learning more please call my office phone at (949) 261-0326 or e-mail me with questions.

I thank you again and hope you have a safe end to this school year.

A short 3 minute video on the program
